

KISANET

My name is Kisanet

I am 21 years old. I am from Eritrea. I was born in a small town called Senafe. For some reason I and my family moved from Eritrea to Ethiopia Refugee camp.

Living in a refugee camp is very hard, because you cannot work, and you cannot even find enough food because we were refugees in Ethiopia. Sometimes in very hot bad weather we got sick with malaria. The refugee's life in camp was hard, but after a while we got the chance to come to the United States. I was a refugee in Ethiopia for 9 years.

I took my first airplane trip to come to America together with my family.

I have been here in Buffalo NY since May 2017. I have been here for 1 year. My family includes my mama, Dad, 2 sisters and 3 brothers. I love Buffalo. I am attending school to get self-reliant and to learn English and other high school subjects so I can prepare to go to college. I would like to study to be a nurse.
